

Picnik (<http://www.picnik.com>)

What is Picnik?

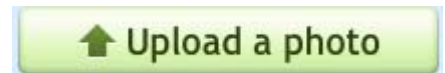

Picnik is a fast, fun, easy to use and powerful set of photo editing tools for editing, sharing and printing images using any internet browser on any computer. Picnik is integrated with a wide variety of websites like Picasa Web Albums, Facebook, Flickr, Yahoo Mail and Photobucket. With Picnik, you can edit your photos wherever they are from wherever you are.

Create an account

Creating an account is not required. You can save 5 photos on the site if you register for the free account.

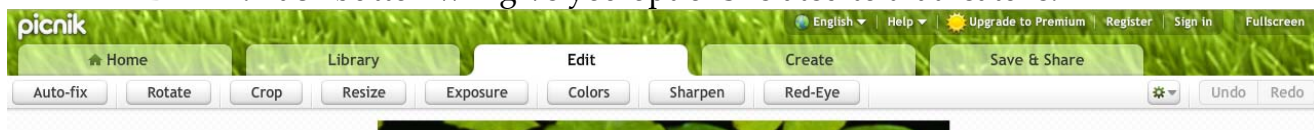

Upload a photo

1. Click the **UPLOAD A PHOTO** button
2. Browse to the location of the photo on your computer
3. Choose **OPEN**

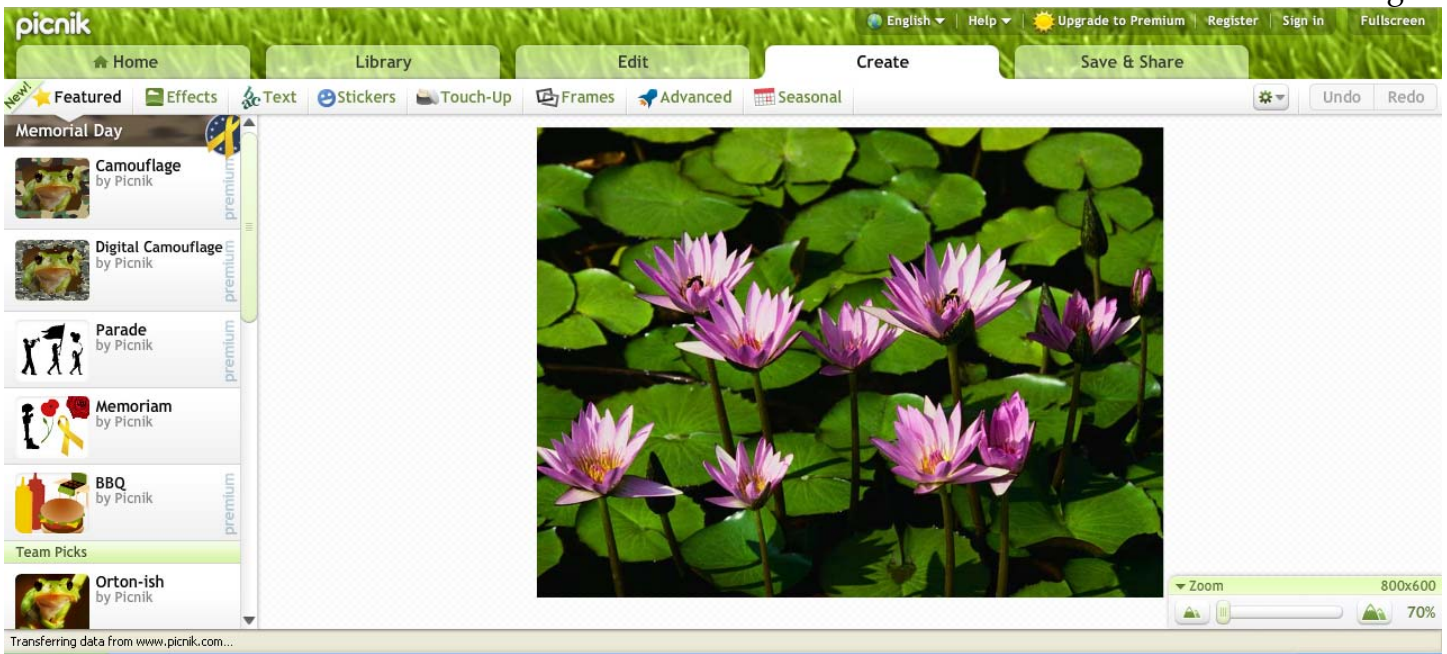

Edit a photo

1. Select the **EDIT** tab
2. Choose from **AUTO-FIX, ROTATE, CROP, RESIZE, EXPOSURE, COLORS, SHARPEN, or RED-EYE**. Each button will give you options related to that feature.
